ROSE

Don't you dare say a fucking word right now Noah! I don't even want to look at you! Seriously, did the last 18 months mean nothing to you? Did I mean nothing to you? How could you fuck someone else and not feel any guilt whatsoever? Did you think I wouldn't find out? That you could come back, and play pretend with your little dirty secret hidden away? How naive-

(wipes away her tears)

-how stupid must you think I am? You can pretend all you want that you're innocent, that you did nothing wrong, but I know everything. Everything.
